

Van Sales Application for an Impactful Sales Transformation

Enhance your van sales & distribution efficiency with optimized route planning, real-time insightful data, faster invoicing process and faster replenishing of stocks. You get these functions with Centegy's goal-driven platform that intelligently aligns the van sales reps to achieve the business goals of your company.

- » **Store Onboarding**
Smart customer profiling, information gathering, identity verification, viability assessment & onboarding.
- » **Van Route Planning**
Create highly optimized, adaptable beat plans for covering the territories efficiently.
- » **Order Taking App**
User-friendly Android app designed for efficient van and spot sales, enhancing productivity and streamlining the sales process
- » **Inventory Management**
Easily manage & track inventory present in the van at every point of sale without error.
- » **Billing & Accounting**
Complex payment collection is made easy with a transparent payment collection system, invoice printing and cash reconciliation.
- » **GPS Tracking & Adherence**
Get full visibility into the customers/stores visited by the vans and ensure adherence with scorecard KPIs
- » **Visual Merchandising Software**
On-site auditing and rating of visual merchandising execution quality at every store.
- » **Promotions & Loyalty Management**
Run trade loyalty program designed to foster loyalty among retailers & B2B customers.
- » **Hybrid Capability**
Works offline in low coverage geographies & auto sync.
- » **Real-Time Map-Based Van Tracking:**
Track the total distance covered and productivity at each outlet on a Map, with geo-fencing and real-time tracking.
- » **Real-Time Van Inventory Management:**
Real-time van inventory management helps in updating existing stock in a van with each transaction.
- » **Mobile Billing Using Bluetooth Printer:**
Invoices are printed via a Bluetooth printer upon completing a sale from the delivery van.
- » **Collections, Payments & Schemes:**
A solution that provides tracking of collections, and payments and allows transparent schemes set up
